Summary

Ready to become part of a team in the field of Frontend development. I am looking for a job in a company with the possibility of professional growth and development of skills. Able to both effectively perform assigned tasks and independently achieve the required result.

My strengths are a creative approach to solving complex tasks, initiative, interest in original visualization of the result.

Professional Experience

Cooperation in the development of a mobile application for an online auction (front-end)

2019 – 2020

Key responsibilities:

- development and implementation of the application interface.
- optimization and processing of received and sent data.

Development of an online store for pet supplies (front-end)

2022 – 2023

Key responsibilities:

- development and implementation of the application interface.
- filtering and sorting of goods.
- creation of a database of goods.

About me

The ability to allocate priorities

Experience and ability to work in a team

Ability to think critically

Creativity and creative approach

Attention to detail

Continuous self-development
